

# Ammunition 7.62x51 General Purpose - Supercavitating

**Product:** General Purpose Multi Environment Ammunition  
**Caliber:** 7.62x51mm  
**Attributes:** Enhanced stopping power (supercavitation)  
Use in wet or dry weapons  
Enhanced penetration effect/inclined targets  
Air to water, water to air, underwater  
No sabot  
**Application:** General purpose, training, including underwater  
**Environment:** Air and water

7.62mm Brass GPS	
Caliber	7.62
Weight (g)	8.00
Velocity (m/s)	870
Effectv range air (m)	800
Effectv range water (m)	10

Also available in 5.56mm, 9mm & 12.7mm with similar attributes

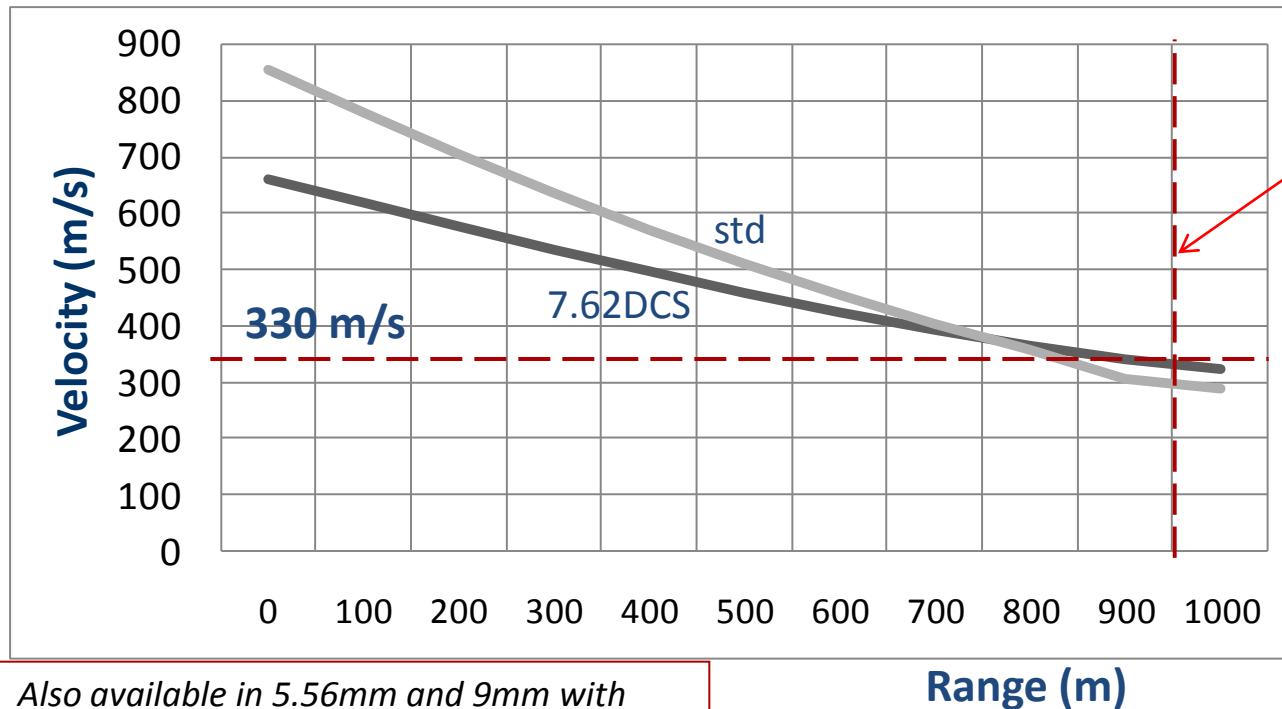

Range (m)

# Ammunition 7.62x51 Dual Core - Supercavitating

**Product:** Dual Core Multi Environment Ammunition  
**Caliber:** 7.62x51mm  
**Attributes:** Enhanced AP effect/inclined targets  
Enhanced stopping power (supercavitation)  
Improved range in air  
Air to water, water to air, underwater  
No sabot  
**Application:** Armor piercing, including underwater  
**Environment:** Air and water

7.62mm DCS	
Caliber	7.62
Weight (g)	14.2
Velocity (m/s)	660
Effectv range air (m)	950
Effectv range water (m)	20

Max. range 950m  
= 100m greater than  
standard ammo.

Also available in 5.56mm and 9mm with similar relative attributes

# Ammunition 7.62x51 Armor Piercing - Supercavitating

**Product:** High Performance AP Multi Environment Ammunition  
**Caliber:** 7.62x51mm  
**Attributes:** Enhanced Armor Piercing effect/inclined targets  
Underwater Armor Piercing  
Enhanced stopping power (supercavitation)  
Extended range in air  
Air to water, water to air, underwater  
Discarding sabot  
**Application:** Armor Piercing, including underwater

7.62mm APS	
Caliber	7.62
Weight (g)	16.0
Velocity (m/s)	610
Effectv range air (m)	1040
Effectv range water (m)	25

Max. range 1040m  
= 190m greater than  
standard ammo.

Also available in 5.56mm, 9mm & 12.7mm  
with relative attributes
